Allowable Subject Matter

Claims 1-2,4-10 are allowed over the prior art of record.

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose nor suggest a motor vehicle light unit comprising a reflector defining two focal regions, one focal region being an internal focal region and the other being an external focal region, wherein the light unit further includes a filter movably positioned between the reflector and the lens, so that the filter is located downstream of the external focal region, the filter being opaque to visible light and transparent to only infrared light, and filter-carrying means mounting the filter for moving the filter between a first position out of the path of the light passing from the reflector to the lens in combination with the other limitations of the claim. Since this aspect is not disclosed nor taught in the prior art of record, independent claim 1 and dependent claims 2, 4-10 are deemed allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
